

Beyond your imagination

Pure Spectra 30

# Beyond your imagination

1219.2 x 228.6 x 4.0 mm / 0.30 mm WL + 1.00 mm IXPE  
■ 4 sides micro bevel

*Rigid Core ABA*

## Pure Spectra 30

*Water Resistance*

*Sound Absorption*

*Wear Resistance*

The best of all worlds come together in the new Pure Spectra Collection!

Firstly, the renowned Green-Flor® design team created a stunning set of new designs with again brilliant color arrangements: from subtle, subtle natural wood species to surprising creative contemporary designs. Secondly the Green-Flor® technical development team created a new alternative to the current click products: Rigid Composite Core technology (RCC). A flooring system combining the strength of stone and the beauty of wood in 7 layer composed product with a wear layer of 0,3mm. The known Green-Flor® quality for wear layer and protective ultra thin top coating (Top Protection Plus) adds to the overall resistance of daily aggressions to the product, guaranteeing the best aesthetical look for years to come! The high grade mix of minerals and pvc in the core of the product enhances on top of it the already ultra-strong click connection between the planks. A further great advantage is that there will be a standard integrated acoustic underlayment. This will provide a quiet surface (≥18 dB!), comfortable in the room but also in the room below.

Pure Spectra, the best of all worlds!

 Green-Flor®
